

# JAINAM SHAH

Fair Lawn, NJ | 347-282-9073 | jainamshah0428@gmail.com | [github.com/jshah0428](https://github.com/jshah0428) | [linkedin.com/in/jainamshah0428](https://linkedin.com/in/jainamshah0428)

## EDUCATION

**New Jersey Institute of Technology**, Albert Dorman Honors College

May 2027

**Bachelor of Science in Computer Science, Minor in Mathematics + Business**

Newark, NJ

- GPA: 3.91 | Honors Merit Scholarship (Full Tuition)
- Relevant coursework: Data Structures & Algorithms, Compiler Design, Generative AI, Machine Learning, Database Management, Linux and C programming, Network Security, Operating Systems, Linear Algebra

## SKILLS & CERTIFICATIONS

**Softwares:** Anaconda, WSL, LaTeX, Xampp, Minitab, Git, Visual Studios, Postman, Jira, Jupyter Notebooks, Docker

**Technical Skills:** Python, Java, C++, HTML, CSS, JavaScript, SQL, PHP, Linux, Agile software development, Scrum framework

## EXPERIENCE

**Office of Naval Research / Big Data Analytics Laboratory**

Feb 2024 – Dec 2024

*Machine Learning Intern / Honors Research Fellow & Grant Recipient*

Newark, NJ

- Utilized Machine Learning skills to help the US NAVY predict ship maintenance delays and optimize resource allocation
- Enhanced model accuracy by **80%**, reducing predictive errors to **14 days** and saving the U.S. Navy over **\$1 billion** in costs
- Analyzed over **15k** classified features, providing data-driven recommendations on model functionality for U.S. Navy officials
- Reduced overfitting by **20%**, while increasing accuracy by **10%** through a custom algorithm harmonizing ML output

**Tech for Good Inc.**

July 2024 – Sept 2024

*Software Engineering Intern*

Boston, MA

- Engineered an Electronic Medical Records (EMR) system using **Golang** to digitize patient records for accessibility in rural areas
- Designed a ScyllaDB database with **5,000+** patient records, including history and visits, queried via GraphQL API endpoints.
- Built a robust openEHR-compliant platform, initially deployed in Tanzanian hospitals with potential for further expansion
- Implemented Docker to ensure consistent database and language schemas across local machines for all team members

**Structural Analysis of Biomedical Ontologies Center (SABOC)**

Jan 2024 – May 2024

*Machine Learning Intern*

Newark, NJ

- Extract combinations of over **37 million** citations from the PubMed database to identify different **Social Determinants of Health**
- Employed NumPy and Pandas to filter text file redundancies and create a unique list SDoH, increasing the ontology by **15%**
- Harnessed **Unified Medical Language System (UMLS) API** to gather over **20,000** synonyms for existing subject/predicate combinations from **over 12** SemMed Databases, enlarging the ontology by incorporating semantically similar matches

## PROJECTS

[Simple Fortran 95-like compiler](#) - C++

- Built a compiler (lexical analyzer, parser, and interpreter) to read and understand a Simple Fortran 95-like language

[Stock-Market Analyzer](#) - Django, HTML, Twelvedata-API, SQLite

- Developed a Django-based stock portfolio system with real-time fictitious transactions and dynamic data updates using SQLite.
- Integrated Twelvedata API for live stock prices, historical charts, and secure user authentication.

[WasteFree](#) - Kolang, Python, SQLite, Mindee-API, Beautiful Soup, Bcrypt

- Developed a pantry page using **Kolang** to track expiration dates and notify users of expiring items to reduce food waste.
- Built an interactive recipe finder using **Beautiful Soup** and Kolang to suggest recipes from expiring ingredients and user feedback.
- Integrated Mindee API to scan receipts, extract items, and automate pantry management with user confirmation.

[GrooveSync](#) - React.js, Express.js, Node.js, MongoDB, Spotify API, Anthropic Claude Ai API

- Built a responsive disco-themed app with React, Node.js/Express, and MongoDB Atlas for real-time data handling
- Integrated Spotify Web API with OAuth for secure music playback and interactive playlist features
- Developed DiscoAI and a Claude-powered narrative game to deliver dynamic insights into disco culture and history

## LEADERSHIP EXPERIENCE & AFFILIATIONS

**CodePath** - Community Member & Student

Feb 2025 - Present

**NJIT Investment Fund** - Junior Analyst

Dec 2023 - Jan 2025

**Bergen County Debate Club** - Coach & Alum

Sept 2021 - Present
